

Baby Carrier Snap Templates: Straps and Bottoms

Bottom Snap Template: Overlay the wide U shape on the bottom of a finished hood. If the bottom of your hood is a different size, center the template on it.

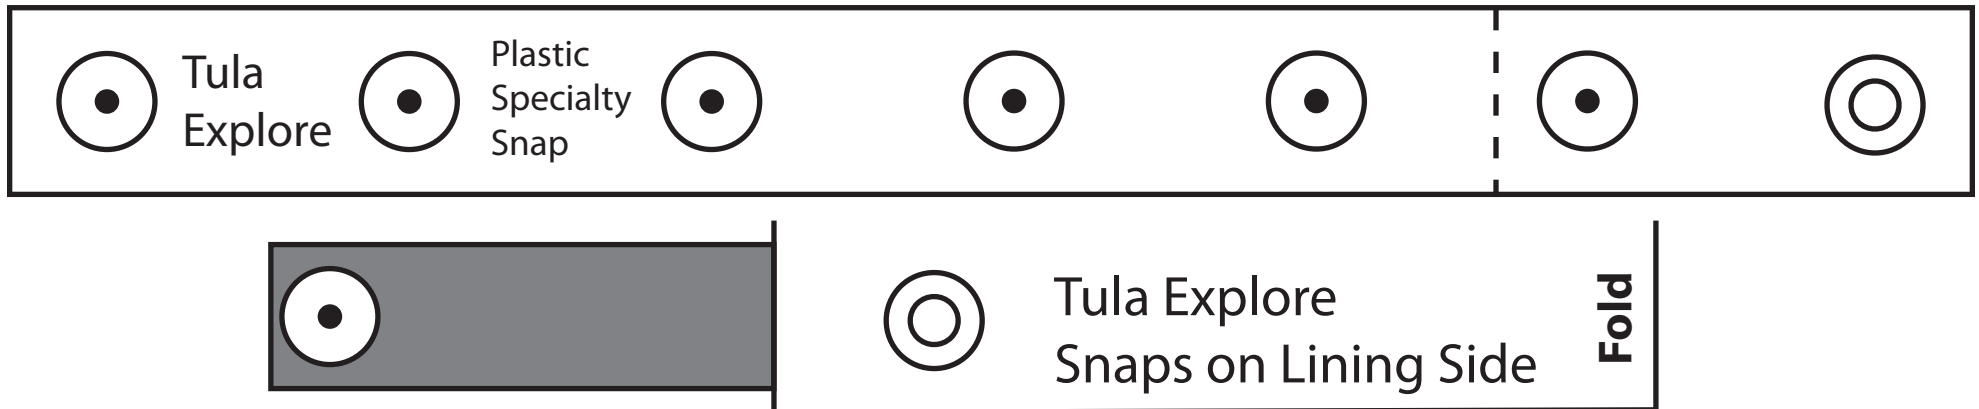

Strap Template: The rectangle represents a 1" (2.5cm) wide strap. The area to the left of the dashed line (7.75" or 19.6cm) is Piece B used for Attached Straps. The whole rectangle (10.25" or 26cm) is Piece C, a Reach Strap which is used with Elastic Loops. The exact spacing of strap snaps doesn't matter, nor does the number of snaps. Straps can also other widths. Below is the original spacing found on the carrier.

Tula Explore

Straps: 10 Sockets - Plastic Tula Specialty Snaps - Add 2 Full sets (any brand) for Elastic Loop Reach strap

Bottom: 2 Snap Sets (any brand) - When snapped, tab fold-to-fold is 10 5/8" (27cm). Template below is only half due to size
